

CAMRON HOFER

IT Systems Administrator | M365 • Entra ID • Intune • IAM/PKI | Secret Clearance
San Antonio, TX | 830-955-0159 | camronhofer@outlook.com | linkedin.com/in/camron-h-a16339234 | Active Secret Security Clearance

PROFESSIONAL SUMMARY

IT Systems Administrator with 5+ years of experience supporting enterprise Windows and Microsoft cloud environments across Department of Defense (DoD) organizations. Delivers Tier II/III escalation support for 500+ users across Microsoft 365, Active Directory, Microsoft Entra ID, Intune, VMware, and IAM/PKI platforms.

Specialized in PKI operations, credential lifecycle management, identity governance, and endpoint security compliance as a certified Enhanced Trusted Agent (ETA). Proven ability to resolve complex identity, authentication, and infrastructure issues in high-availability, security-focused environments.

Certified in CompTIA Security+ (SY0-701) and (ISC)² Certified in Cybersecurity (CC). Currently completing the Microsoft Software & Systems Academy (MSSA) – Server & Cloud Administration track through DoD SkillBridge. Targeting systems administration, cloud infrastructure, and identity security roles. Available September 2026.

PROFESSIONAL EXPERIENCE

Senior IT Support Specialist / Help Desk Lead

September 2024 – Present

U.S. Army | Fort Campbell, KY

- Provide Tier II/III escalation support for 500+ users across enterprise Windows environments
- Lead resolution of complex technical and identity-related incidents impacting mission operations
- Administer and troubleshoot Microsoft 365, Active Directory, Microsoft Entra ID, Intune, and VMware platforms
- Lead Enhanced Trusted Agent (ETA) operations for a Brigade element, administering DoD PKI credential issuance, revocation, and lifecycle management while ensuring identity assurance and compliance with security policies
- Support IAM and PKI operations including identity verification, credential issuance, smart card and token management, PIN recovery, and authentication troubleshooting
- Perform credential lifecycle management and entitlement provisioning in accordance with DoD security controls and least privilege principles
- Maintain endpoint security and compliance across 300+ managed devices
- Supported large-scale system migration involving 300+ endpoints and 800+ user accounts with no major service disruption
- Develop and maintain technical documentation and knowledge base articles to support operational continuity
- Mentor junior technicians, contributing to measurable reductions in average ticket resolution time

IT Support Specialist

January 2021 – September 2024

U.S. Army | Fort Campbell, KY

- Delivered Tier I/II technical support for hardware, software, authentication, and network connectivity issues
- Logged, tracked, and resolved incidents using enterprise ticketing systems including ServiceNow and Remedy
- Performed password resets, account unlocks, and user account provisioning in Active Directory
- Supported system deployments, workstation imaging, and upgrade initiatives across enterprise environments
- Independently diagnosed endpoint, application, and network-related incidents
- Provided clear technical guidance to non-technical users in high-volume support environments

Satellite Installation Technician

July 2020 – December 2020

Southern Star Inc. | San Antonio, TX

- Installed and configured satellite communication systems at residential customer sites
- Diagnosed hardware and connectivity issues to ensure reliable service delivery
- Delivered customer-focused technical support and education
